MOVIMIENTO UNIDAD REVOLUCIONARIA

July 25, 1964

The Honorable Dean Rusk
 Secretary of State
 Washington, D.C.

Dear Mr. Secretary:

Since October 1962, when your late beloved President John F. Kennedy courageously quarantined Cuba to defend this hemisphere in the face of a direct threat to it from Soviet ballistic missiles, UNIDAD REVOLUCIONARIA has devoted a good deal of its efforts to bolstering the strong and clear attitude expressed by the U.S. Government thereby.

UNIDAD REVOLUCIONARIA has regularly compiled and published information on free world shipping to Cuba, and is proud to lay claim to a part of the successful reduction of both the number of free world ships visiting Cuban ports and the countries participating in this shameful trade. This campaign will be continued until those firms--buyers, sellers and shippers--which refuse to face up to their share of the guilt for the present miserable plight of the Cuban people, are stripped of their last subterfuge and technicality, and left exposed to the horrified glare of world opinion along with their infamous business partner, Fidel Castro.

We have also brought to your attention the details of other trade negotiations between commercial firms in the free world and the Cuban Ministry of Trade, including a nefarious plot involving one of the largest British molasses brokers. The purpose of this plot was to violate the embargo on the sale of Cuban produce in the United States. We showed how, through a simple ruse, the affiliates of this British organization, including one in the United States, make U.S. dollar credits available to the Castro-Communist regime.

Now, these same underground sources of proven reliability inform us of a recent order placed by the Cuban Communist Government with a Dutch firm, Stemmer Imex, for special electronic and photographic gear, including an aero triangulator and infra red equipment. Our report states that these items are being purchased for use by Castro's air force. UNIDAD REVOLUCIONARIA urgently requests that you take immediate steps to verify this information and make strong protest through appropriate channels.

While Leyland Bus Company officials may try to argue with a smirk that their buses cannot be used in Cuba as weapons of war (and they would lose the argument!), Stemmler Imex cannot claim that the items described above are not military equipment!

Yours truly,

Dr. Mario Seiglie Montoro
Secretary General
UNIDAD REVOLUCIONARIA (UR)
